Aquaponics Lab – we will launch our Aquaponics Lab on **March 16, 2022.** Aquaponics is a closed loop sustainable food production system with 3 components (Fish, Bacteria, and Plants). We are excited for this new venture.

" I am profoundly moved by the expressions of appreciation by all. The plants, bouquets, and delicious fruits were a wonderful reminder of God's love and care for me. I enjoyed the private lunch experience though it was lonely. The cookies, donuts, and cards were a nice treat. Whatever way you expressed your appreciation it was received with much gratitude."
